 *This list represents just a few of our many business partners

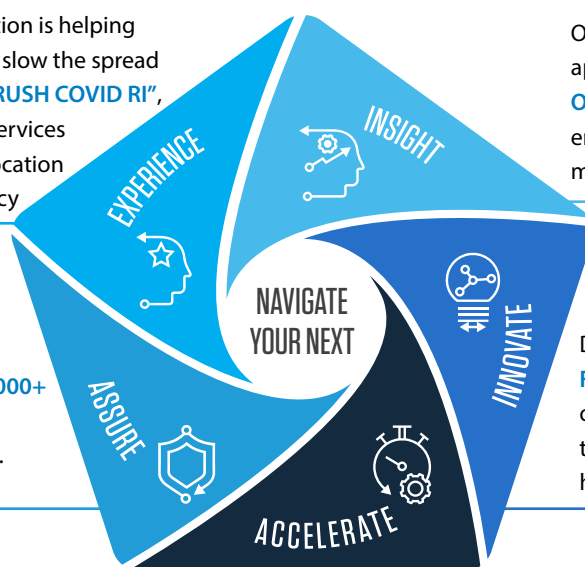

How public sector organizations are navigating their next with us

A privacy-first contact tracing solution is helping **Rhode Islanders** and state officials slow the spread of coronavirus. The application, "**CRUSH COVID RI**", leverages Infosys Location Based Services platform to create individualized location diaries, while protecting user privacy

Oracle Planning and Budgeting Cloud Service application is enabling an **Intergovernmental Organization** to automate budget approvals, enhance reporting and improve decision making

Quality assurance (QA) services for the **CalWIN** project is enabling **30,000+ users** to deliver the right welfare services to over 6 million members.

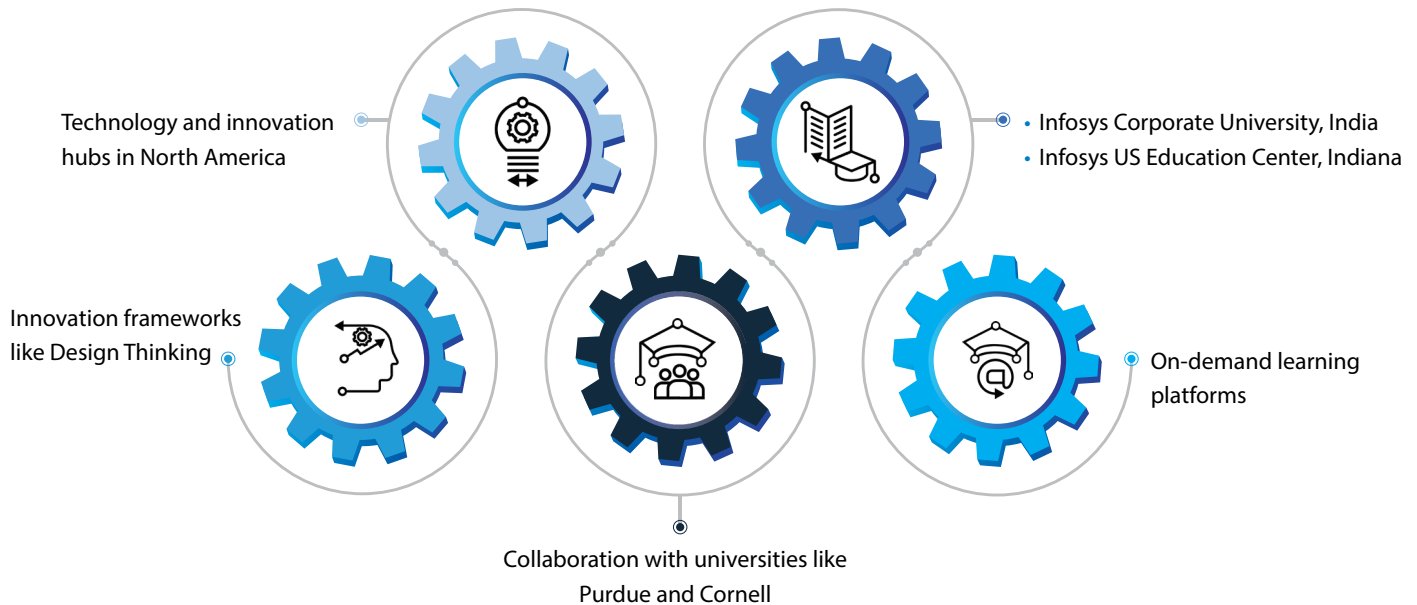

Deployment of automated tools helped **FedPoint** to design and test various health options for **260,000+** members, enabling the members to select the most relevant health benefits

Automation helped a city modernize its legacy tax and permitting system into an agile, scalable, digital system in half the time and at a **savings of 20%** over the cost of rewriting the system from scratch

Always learning, always innovating

Navigating the next transformation requires us to stay updated on new technologies and new opportunities. Our strong learning ecosystem enables us to constantly re-skill and innovate.
